INDEPENDENT AUDITORS' REPORT

To the Town Council
Town of Pima, Arizona

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Pima, Arizona, as of and for the year ended June 30, 2012, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town of Pima, Arizona's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

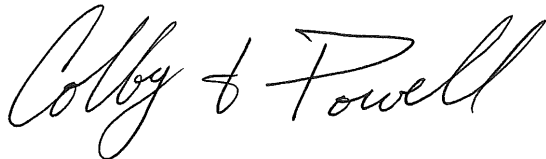

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Pima, Arizona, as of June 30, 2012, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 31, 2012, on our consideration of the Town of Pima, Arizona's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Town of Pima has not presented the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America has determined is necessary to

supplement, although not required to be part of, the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on pages 28 through 31 and Schedule of Agent Retirement Plan Funding Progress on page 32 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Governmental Funds
Year Ended June 30, 2012

Net change in fund balances--total governmental funds		\$ (47,832)
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.		
Capital outlay	4,500	
Depreciation expense	<u>(184,788)</u>	(180,288)
In the Statement of Activities, only the gain/loss on the sale of capital assets is reported whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net assets differ from the change in fund balance by the book value of the capital assets sold.		
		(1,398)
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the Town of Pima, Arizona have been prepared in conformity with U.S. generally accepted accounting principles applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB). A summary of the Town's more significant accounting policies follows.

A. Reporting Entity

The Town is a general purpose local government that is governed by a separately elected Town Council. The accompanying financial statements present the activities of the Town (the primary government).

B. Basis of Presentation

The basic financial statements include both government-wide statements and fund financial statements. The government-wide statements focus on the Town as a whole, while the fund financial statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the usefulness of the information.

Government-wide statements—provide information about the primary government (the Town). The statements include a statement of net assets and a statement of activities. These statements report the financial activities of the overall government, except for fiduciary activities. They also distinguish between the governmental and business-type activities of the Town. Governmental activities generally are financed through taxes and intergovernmental revenues. Business-type activities are financed in whole or in part by fees charged to external parties.

A statement of activities presents a comparison between direct expenses and program revenues for each function of the Town's governmental activities and segment of its business-type activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The Town does not allocate indirect expenses to programs or functions. Program revenues include:

- charges to customers or applicants for goods, services, or privileges provided,
- operating grants and contributions, and
- capital grants and contributions, including special assessments.

Revenues that are not classified as program revenues, including internally dedicated resources and all taxes, are reported as general revenues.

TOWN OF PIMA, ARIZONA

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Generally, the effect of interfund activity has been eliminated from the government-wide financial statements to minimize the double counting of internal activities. However, charges for interfund services provided and used are not eliminated if the prices approximate their external exchange values.

Fund financial statements—provide information about the Town’s funds, including fiduciary funds. Separate statements are presented for the governmental, proprietary, and fiduciary fund categories. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Fiduciary funds are aggregated and reported by fund type.

Proprietary fund operating revenues, such as charges for services, result from transactions associated with the fund’s principal activity in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from transactions in which the parties do not exchange equal values. Revenues generated by ancillary activities are also reported as nonoperating revenues.

The Town reports the following major governmental funds:

The ***General Fund*** is the Town’s primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The ***HURF/LTAF Fund*** accounts for specific revenue received from the State of Arizona Highway User Revenue Fund and from State of Arizona Local Transportation Assistance Fund which are legally restricted to expenditures for specified purposes.

The ***Grants Fund*** accounts for specific revenue sources that are restricted to expenditures for specified purposes as defined by the grantor.

The Town reports the following major enterprise fund:

The ***Sewer Fund*** accounts for operations that are financed and operated in a manner similar to private business enterprises, in which the intent of the Town Council is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or for which the Town Council has decided that periodic determination of revenue earned, expenses incurred, or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

TOWN OF PIMA, ARIZONA
Notes to Financial Statements
June 30, 2012

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

The Town reports the following fund types:

The ***Investment Trust Fund*** accounts for pension funds for various firefighters. The Town acts as a trustee for such funds and does not have title to the assets or liabilities accounted for in this fund.

C. Basis of Accounting

The government-wide, proprietary fund, and fiduciary fund financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Property taxes are recognized as revenue in the year for which they are levied. Grants and donations are recognized as revenue as soon as all eligibility requirements the provider imposed have been met.

Governmental funds in the fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The Town considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, and compensated absences, which are recognized as expenditures to the extent they are due and payable. General capital asset acquisitions are reported as expenditures in governmental funds. Issuances of general long-term debt and acquisitions under capital lease agreements are reported as other financing sources.

The Town's business-type activities and enterprise funds follow FASB Statements and Interpretations issued before November 30, 1989; Accounting Principles Board Opinions; and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

D. Cash and Investments

For purposes of its statement of cash flows, the Town considers only those highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Nonparticipating interest-earning investment contracts are stated at cost. Money market investments and participating interest-earning investment contracts with a remaining maturity of

one year or less at time of purchase are stated at amortized cost. All other investments are stated at fair value.

E. Allowance for Uncollectible Accounts

Allowances for uncollectible accounts receivable in the Sewer Fund are estimated by the Town. The amount recorded as uncollectible at June 30, 2012 totaled \$8,914.

F. Property Tax Calendar

Property taxes are levied on or before the third Monday in August and are payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

The Town levies various personal property taxes that are due the second Monday of the month following receipt of the tax notice and become delinquent 30 days later. A lien assessed against real and personal property assessed attaches on the first day of January preceding assessment and levy.

G. Capital Assets

Capital assets are reported at actual cost. Donated assets are reported at estimated fair value at the time received.

Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements and proprietary funds are as follows:

	<u>Capitalization Threshold</u>	<u>Depreciation Method</u>	<u>Estimated Useful Life (years)</u>

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

H. Investment Income

Investment income is composed of interest, dividends, and net changes in the fair value of applicable investments.

I. Compensated Absences

Compensated absences consist of vacation leave earned by employees based on services already rendered.

Employees may accumulate up to 192 hours of vacation hours. Upon termination of employment, all unused vacation benefits are paid to employees. Accordingly, vacation benefits are accrued as a liability in the financial statements.

Employees may accumulate up to 120 hours of sick leave hours but any sick hours in excess of the maximum amount that are unused at year-end are forfeited. Because sick leave benefits do not vest with employees, a liability for sick leave benefits is not accrued in the financial statements.

J. Fund Balance Reporting

The Governmental Accounting Standards Board (GASB) Statement No. 54 requires fund balances to be properly reported within one of the fund balance categories listed below:

1. *Nonspendable* fund balance includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact such as fund balance associated with inventories, prepaids, long-term loans and notes receivable (unless the proceeds are restricted, committed, or assigned),
2. *Restricted* fund balance includes amounts that can be spent only for the specific purposes stipulated by constitution provisions or enabling legislation, or external resource providers,
3. *Committed* fund balance includes amounts that can be used only for the specific purposes determined by a formal action of the town council,
4. *Assigned* fund balances are intended to be used for specific purposes but do not meet the criteria to be classified as restricted or committed, and
5. *Unassigned* fund balance is the residual classification for the Town's governmental funds and includes all spendable amounts not contained in other classifications.

The Town's policy for committed fund balances is through formal resolutions passed through the elected town council. The process of rescinding a committed fund balance requires the same process.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

The Town’s policy for assigned fund balances is through motions passed by the elected town council. Assigned fund balances do not require a formal resolution.

When expenditures incur for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available, the Town’s policy is to apply the expenditure first to restricted, and then to unrestricted in the following order of committed, assigned, and then unassigned.

NOTE 2 – DEPOSITS AND INVESTMENTS

Arizona Revised Statutes (A.R.S.) authorize the Town to invest public monies in the State Treasurer’s investment pool; U.S. Treasury obligations; specified state and local government bonds; and interest-earning investments such as savings accounts, certificates of deposit, and repurchase agreements in eligible depositories. The statutes require collateral for demand deposits, certificates of deposit, and repurchase agreements at 101 percent of all deposits not covered by federal depository insurance.

The Town has not formally adopted deposit and investment policies that limit the Town’s allowable deposits or investments and which address the specific types of risk to which the Town is exposed such as interest rate risk, credit risk, and custodial credit risk.

Deposits—At June 30, 2012, the carrying amount of the Town’s total nonpooled cash in bank was \$258,954, and the bank balance was \$277,221. Of the bank balance, \$250,000 was covered by federal depository insurance; the remainder was covered by collateral held by the pledging financial institution’s trust department or agent in the Town’s name.

Investments—At June 30, 2012, the investments consisted of the following.

Investment	Rating Organization	Credit Rating	Reported Amount	Fair Value
Arizona LGIP Pool 5	S&P	AAA	\$ 100,993	\$ 100,993

The State Board of Investment provides oversight for the State Treasurer’s pools, and the Local Government Investment Pool Advisory Committee provides consultation and advice to the Treasurer. The fair value of a participant’s position in the pool approximates the value of that participant’s pool shares. Those shares are not identified with specific investments and are not subject to custodial credit risk.

NOTE 7 – RETIREMENT PLANS

Plan Descriptions—The Town contributes to the two plans described below. Benefits are established by state statute and generally provide retirement, death, long-term disability, survivor, and health insurance premium benefits.

The *Arizona State Retirement System* (ASRS) administers a cost-sharing multiple-employer defined benefit pension plan that covers general employees of the Town. The ASRS is governed by the Arizona State Retirement System Board according to the provisions of A.R.S. Title 38, Chapter 5, Article 2.

The *Public Safety Personnel Retirement System* (PSPRS) is an agent multiple-employer defined benefit pension plan that covers public safety personnel who are regularly assigned hazardous duty as employees of the State of Arizona or one of its political subdivisions. The PSPRS, acting as a common investment and administrative agent, is governed by a five-member board, known as The Fund Manager, and the participating local boards according to the provisions of A.R.S. Title 38, Chapter 5, Article 4.

Each plan issues a publicly available financial report that includes its financial statements and required supplementary information. A report may be obtained by writing or calling the applicable plan.

NOTE 1 – BUDGETING AND BUDGETARY CONTROL

Arizona Revised Statutes (A.R.S.) requires the Town to prepare and adopt a balanced budget annually for each governmental fund. The Town Council must approve such operating budgets on or before the third Monday in July to allow sufficient time for the legal announcements and hearings required for the adoption of the property tax levy on the third Monday in August. A.R.S. prohibits expenditures or liabilities in excess of the amounts budgeted.

Expenditures may not legally exceed appropriations at the department level. In certain instances, transfers of appropriations between departments or from the contingency account to a department may be made upon the Town Council's approval.

NOTE 2 – BUDGETARY BASIS OF ACCOUNTING

The Town's budget is prepared on a basis consistent with generally accepted accounting principles.

**REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS***

To the Town Council
Town of Pima, Arizona

We have audited the financial statements of the Town of Pima, Arizona, as of and for the year ended June 30, 2012, and have issued our report thereon dated October 31, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of the Town of Pima, Arizona is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Town of Pima, Arizona's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Pima, Arizona's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Town of Pima, Arizona's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and responses, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable

possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies with reference numbers **07-04** to **07-05** described in the accompanying schedule of findings and responses to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Pima, Arizona's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

The Town of Pima, Arizona's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. We did not audit the Town of Pima, Arizona's responses and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the Town's management, Town Council, and federal awarding agencies and is not intended to be, and should not be, used by anyone other than these specified parties.

Financial Statement Findings

Audit findings and responses are as follows:

Item: 07-04

Subject: Segregation of duties.

Criteria/Specific Requirements: Management should separate important duties related to recording cash in the accounting records of the Town, reconciling accounting records to external documents such as bank statements, and custody of cash.

Condition: Not unlike other governments of similar size and structure, the Town's size and structure limit the options available to the Town for segregation of duties.

Effect: A material misstatement could occur due to error or fraud and not be discovered by management in a reasonable amount of time.

Cause: Due to the size of the Town, management is limited in the options available to them to segregate important duties.

Recommendation: Management should segregate employee duties so that one person does not prepare and record checks and reconcile cash to the bank statements and cancelled checks and also review completed bank reconciliations. Management should have someone other than the person who prepared and recorded checks in the accounting software distribute signed checks to the payees.

Response: Management agrees with this finding and will implement procedures to properly segregate responsibilities related to recording cash in the accounting records of the Town, reconciling accounting records to external documents such as bank statements, and custody of cash, to the extent possible.

Item: 07-05

Subject: Review of utility billing adjustments.

Criteria/Specific Requirements: The billing adjustment function should be segregated from the cash receipting and billing functions. If it can not be segregated, someone apart from such functions should review billing adjustments on a regular basis.

Condition: Billing adjustments are done by the same employee who collects cash and prepares bills for utility services.

Effect: A material misstatement could occur due to error or fraud and not be discovered by management in a reasonable amount of time.

Cause: Due to the size of the Town, management is limited in the options available to them to segregate important duties.

Recommendation: Management should designate a responsible employee to review utility billing adjustments on a monthly basis.

Response: Management agrees with this finding and will assign a separate employee apart from the cash receipting function and the billing function to review billing adjustments.

**INDEPENDENT AUDITORS' REPORT ON
COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO THE USES OF HIGHWAY USER
REVENUE FUND MONIES IN ACCORDANCE
WITH ARS TITLE 28, CHAPTER 18, ARTICLE 2**

To the Town Council
Town of Pima, Arizona

We have audited, in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, business-type activities, each major fund, and aggregate remaining fund information of the Town of Pima as of and for the year ended June 30, 2012, which collectively comprise the Town's basic financial statements, and have issued our report thereon dated October 31, 2012.

In connection with our audit, nothing came to our attention that caused us to believe that the Town failed to use highway user revenue fund monies received by the Town pursuant to Arizona Revised Statutes Title 28, Chapter 18, Article 2 and any other dedicated state transportation revenues received by the Town solely for the authorized transportation purposes. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance.

This report is intended solely for the information and use of management and the members of the Arizona State Legislature and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record, and its distribution is not limited.
